## ***Give Kids A Chance Awards 25 Scholarships To Low-Income Students***

**MIAMI, FL** — May 4, 2022 – *Give Kids A Chance*, a charitable foundation that provides college scholarships to low-income students, has recently selected 25 high school seniors across the state of Florida as this year’s award recipients. Each award provides the recipient with four annual scholarships of \$1,250 each.

Founded in 2004 by [Brian J. McDonough](#), a shareholder and director at the law firm of Stearns Weaver Miller, *Give Kids A Chance* is a donor-advised fund that provides college scholarships to children of low-income families statewide. As a result of the generous donations of business associates in the affordable housing industry, such as developers, lenders, professionals and investors, the fund has raised over \$2.0 million and awarded over 500 scholarships to date.

“Give Kids A Chance’s motto is ‘education is power,’” said McDonough, an affordable housing lawyer. “Our goal is to help young people who lack means but have aspirations to higher education so that they can empower themselves. To all of the many applicants who apply for our scholarships each year, we wish you great success in pursuing your education and realizing your dreams.”

The charity’s main fundraising event is an annual golf tournament held in Miami Beach, attended by leaders in the affordable housing industry who support the program.
