

Cases by
SQ/MI

Data Source: Florida Department of Health, Florida COVID19 Cases by Zip Code, September-2-2020. This data represents the total count of positive COVID-19 tests from 3/2/2020 to 9/2/2020 as the number of cases per square mile based on the estimated 2018 population.

Notes:
Persons with duplicative positives might not be accounted for in these calculations. These totals may not reflect the numbers shown on the department's official data dashboard.
