OVERVIEW

Carl Eldred has nearly 20 years of experience counseling clients on solid and hazardous waste management and compliance, waste recycling and clean up, alternative fuels, and hazardous substance and pollutant releases. He routinely advises utility, industrial, chemical manufacturing, and developer clients regarding the remediation and redevelopment of large-scale contaminated properties in relation to both groundwater and soil, including the use of risk-based corrective action and brownfield incentives and grant programs.

Carl also represents clients on regulatory and compliance matters at federal, state and local levels, including representation before the U.S. Environmental Protection Agency, U.S. Department of Agriculture, U.S. Department of Justice and Florida Department of Environmental Protection. He is highly skilled in defending agency enforcement actions resulting from facility inspections, accidental releases, alleged permit violations, and historic site contamination.

Carl has also worked with Community Development Districts and Special Districts throughout Florida on various issues related to contracts, property transactions, public procurement, ethics and public records.

REPRESENTATIVE EXPERIENCE

Negotiates state and federal corrective action orders and counsels clients on related compliance matters. Examples include the negotiated resolution of a CERCLA enforcement action with the U.S. Department of Agriculture involving low-level radioactive wastes, and the representation of a chemical manufacturing client in an enforcement action brought by the U.S. EPA as part of a national enforcement initiative.

Represents clients in U.S. EPA Rulemakings, including Coal Combustion Residuals and Resource Conservation and Recovery Act (RCRA) Rules.

Represents clients in Florida Department of Environmental Protection Rulemakings, including contamination cleanup,

solid and hazardous waste management, waste cleanup, management of coal combustions residuals, storage tanks and brownfields.

Assisted chemical manufacturing client with corporate due diligence for a multi-billion dollar acquisition and sale of assets.

Represents Florida and regional electric utilities before state and federal regulatory agencies on various solid waste, hazardous waste, and contamination release and remediation matters.

Represents clients in the defense of state and federal enforcement actions, including litigation and the negotiation of administrative orders on consent and corrective action orders.

Counsels and assists utility, industry and chemical manufacturing clients on solid and hazardous waste management compliance, including beneficial use and recycling issues and opportunities.

Routinely counsels clients regarding the remediation and redevelopment of contaminated properties, including the use of risk-based corrective action and brownfield incentives and grant programs.

Counsels clients on the regulatory obligations associated with the release or discovery of hazardous wastes and substances.

Represents clients in real estate transactions involving the purchase and sale of contaminated properties or properties undergoing waste cleanup.
